

How to make your next yacht sale really count!

Thank you from the Heart

FREEDOM WATERS FOUNDATION (FWF) is a non-profit organization, founded by John Weller of Allied Richard Bertram yachts and Debra Frenkel to provide boating opportunities and marine related education for individuals with disabilities, other special needs and youth at risk.

FREEDOM WATERS has created a unique opportunity called **“Thank you from the Heart”** which provides a means for the yachting brokerage community to provide recognition to their clientele in a meaningful way.

To thank a client for their business, consider donating \$500 to FREEDOM WATERS to underwrite a day's outing (FWF Weller Day) on the water for a child with cancer, his friends and family. FREEDOM WATERS will coordinate all arrangements for the boat, captain, food & beverages as well as the special guests.

In return, you and your client will each receive a plaque featuring a photograph of the child that you have sponsored. Along with this plaque, your client will also receive a letter from FREEDOM WATERS FOUNDATION informing them that you have chosen to underwrite this special event in your client's honor.

This is also a great way to say 'Thank you' on Mother's Day, or to celebrate any other special occasion.

If you would like further information on this program, please free to call:
